SCALING GOOD GROWTH

India is already a shining beacon of growth and development in the 21st century. Now, as a leader of the Global South, our collective voice must be a powerful advocate for people and planet-positive innovation, action, and impact.

We know our 2030 ambitions are bold, clear, and inspirational – but ambition will only get us part of the way to the future we seek. At home and abroad we will need partners to actively collaborate on systemic challenges; to embrace new ideas and realise new solutions; and to find new ways to balance the economic, social, and environmental needs of our world.

Together, India can showcase the sustainable and responsible practices that are required to scale Good Growth.

Why join us?

The Exchange, by Xynteo – India @ 2030, Scaling Good Growth – brings together Indian and international business leaders with thought leaders, policy makers and change makers.

The programme will engage you in perspective shaping conversations, shape action-orientated solutions, and accelerate India's ambitions for an inclusive and planet-positive future.

Scaling objectives:

- Tackle shared challenges to future-fit growth through immersive sessions
- Forge new, and reinforce existing, relationships for transformative collaborations
- Generate actionable outcomes that leverage the expertise of likeminded organisations
- Nurture start-ups and change makers that are innovating for a sustainable and resilient India

THE EXCHANGE, BY XYNTEO, IS AN EXCLUSIVE INVITE-ONLY EVENT OVER TWO DAYS (15-16 FEBRUARY 2024) IN NEW DELHI.

Day 1 : 16:00 – 21:00

Day 2 : 10:00 – 18:30

Xynteo operates at the intersection of positive impact and value creation to turn your most complex challenges into opportunities for Good Growth.

STRATEGY AND INNOVATION

Investigate, challenge and implement the sustainable value-creation strategies and business models needed to shape and thrive in a new future.

LEADERSHIP AND CULTURE

Inspire and equip leaders to develop the regenerative mindset, skills and organizations needed to navigate a new way of doing business.

SYSTEMS COLLABORATION

Join forces with others, across sectors and borders, to reshape systems and tackle challenges that are too complex and expensive to do alone.

ABOUT XYNTEO

TODAY’S WORLD NEEDS GOOD GROWTH

Xynteo is a purpose-driven business advisory firm that helps global organisations, and their leaders, find new ways to grow forward responsibly as they tackle societal and environmental challenges that are too big, too expensive, and too complex to solve alone.

We believe that business is a force for good when organisations and their leaders plan for the long term, work with, instead of against nature, and use their influence and resources for the many, not the few.

For us, this is good growth.

We partner with the world’s largest organisations to help them find new ways to grow.
