## COMMERCIALY IMPACTFUL CIRCULAR BUSINESS MODELS

Embrace the opportunity of transitioning to circular business models that mitigate supply risk, maximise the value of your assets, and unlock new revenue streams.

### SOME OF OUR CLIENTS

At Xynteo, we understand that the transition to commercially competitive circular business models can be complex. As we build value chains that are more resilient, regenerative and resource efficient, the opportunity for positive planetary and social impact is vast.

**We provide a tailored service that meets your organisation, employees, supply chain partners and customers where they are on your collective circularity journey.**

### How we help

#### IMPLEMENT REGENERATIVE PRACTICES

Sourcing goods and materials from sustainable and secondary sources.

#### CRAFT '-AS A SERVICE' BUSINESS MODELS

Switching to a service to reduce consumption and increase product utilisation.

#### ENGAGE IN CIRCULAR DESIGN

Reimagining your strategy for goods, materials or services with circularity in mind.

#### CREATE BUY-IN WITH COLLABORATION

Collaboration across value chains and sectors to shift mindsets and the system.

#### DELIVER SOCIAL IMPACT

Build circular businesses that benefit, not harm, those in your society it touches.

#### REDUCE, REFURBISH AND REUSE

Use resources responsibly, consume less, and repair to keep in circulation longer.

#### SMARTER, CONNECTED SUPPLY CHAINS

Capture, analyse and use data across supply chains and product lifecycles.

#### COLLECT, SORT AND RECYCLING

Ensuring that all value is extracted and deployed in future production lifecycles.
